FOR IMMEDIATE RELEASE:

### **EBY-BROWN WINS THE CARGONET “BEST IN SECURITY AWARD”**

NAPERVILLE, Ill. — June 17, 2015 — Eby-Brown Company, LLC, a leading consumer products distributor to the convenience industry in the eastern United States, was recently recognized by CargoNet® with its 2014 “Best in Cargo Security Award.” The award recognizes CargoNet members that have demonstrated best practices in cargo security through the use of the CargoNet program in addition to their own security protocols. CargoNet is a division of Verisk Crime Analytics, a Verisk Analytics (Nasdaq:VRSK) business.

CargoNet is the cargo theft database and information-sharing division of Verisk Crime Analytics. Verisk Crime Analytics is a leading provider of crime prevention services for retailers, manufacturers, logistics companies, equipment owners, and insurance companies and offers data and analytical support to law enforcement. The company offers a comprehensive suite of data management, analytic, and theft prevention services that include prediction, mitigation, response, and recovery.

“Eby-Brown has been a supporting CargoNet member for several years and has demonstrated a strong willingness to protect the freight of its customers from a security perspective. Furthermore, the company understands that the impact of a cargo theft event far surpasses the loss value of the cargo and, by keeping its customers’ products off the street, protects customer brands and keeps their supply chains fluid,” said Anthony Canale, general manager of CargoNet.

Safety and security have long been one of Eby-Brown’s top priorities. “It’s an honor to be recognized by CargoNet,” says Joe Pfeifer, vice president of Loss Prevention and Safety at Eby-Brown. “Cargo security is part of the service we provide to our customers at Eby-Brown. Having the products when our customers need them and ensuring the safety of food products within the supply chain are important in our overall commitment to customer service.”
