

A World of Beverages, Pick

---

8-31-2012

Dear Valued Customer,

We are asking customers to pull any 5 gallon Pomegranate Fountain Drink syrups dated 1642 with a best by date of 6-12-13. We have experienced some fermentation in this batch of product which results in expanded bags and sour product. This was a small run of only 27 total cases, and we are asking stores that have this product with this date to dispose of it on site. Gus Pasquini will contact you regarding credit for these boxes. Thank you, and please be assured we are testing all subsequent production runs to be sure the problem was limited to this date.

Sincerely,

Kevin Donnellan  
Vice President Operations
