

Date: June 8, 2012

To: Our Valued Customer

From: Sandip Parikh, Vice President Quality Control

Subject: Product Recall – T.G.I. Friday's

We are issuing a product recall for two T.G.I. Friday's products. This is a lower level, Class 2 recall. This means we need to pull product back from you and your customers.

This recall is based on a chance there are tiny metal particles in our seasoning. This issue was caused by an incoming ingredient from our seasoning supplier, Kerry Ingredients and had nothing to do with our manufacturing processes and procedures. These particles were even too small to be picked up by the metal detectors at Kerry's facility as well as our plant.

Only the follow T.G.I. Friday's products are affected:

Mozzarella Sticks: Expiration date FEB242013

Onion Rings: Expiration dates: FEB122013
FEB162013
FEB172013
FEB182013 for all domestic

Expiration dates: 2013MA22
2013MA232 for Canadian

All product recovered must be held and not destroyed until further notice. Kerry Ingredients or Inventure Foods will be in communication and will work with you to handle the pickup of these products.
